2021 AIA New England Design Awards “Placemaking Through Architecture”

Hosted by the Central Massachusetts Chapter of AIA

Program – The Annual AIA New England Design Awards Program celebrates architecture by New England architects anywhere in the world and architecture by other architects within the New England region.

We want to celebrate from small to large firms and projects of all sizes, types, and budgets. This is a great opportunity to have your project recognized by a panel of your peers!

Projects – Entrants may submit any structure or project type built or unbuilt. There are no specific project types. Projects without the stamp of a licensed professional will be accepted.

They will be grouped as:

Category 1 – Projects anywhere in the world designed by AIA members from any of the AIA New England Chapters.

Category 2 – Projects designed in the AIA NE geographic area (see map) by an entrant who is not a member of an AIA New England Chapter.

Awards – Project Awards will be structured around the Honor, Merit and Citation system. The judging criterion is design excellence over a wide range of building and project types, sizes, and budgets. Entries will be judged on their own merit, judged individually, not in competition with each other.

This year we will also recognize a ‘Best Project’ from each New England Chapter plus a special treat. Attendees of the October 16 Awards Dinner will have the opportunity to select a ‘People’s Choice’ Award Winner!

Awards Timeline

Deadline to Register by: **July 30, 2021**

Submit Project Materials by: **August 15, 2021**

Applicant Status Notification: **September 22, 2021**

Awards Dinner: **October 16, 2021**
